

S P O R T I F

How it all links together

*One hub, with Lucy as the face. Ambassadors and a little paid bring people in.
The store and the email list are where we keep them.*

We are building an audience from a small start, so other people's reach and a little paid are the engine.

The plan, step by step

Now to September, then beyond.

Set up

now

Get the one Sportif hub ready: the Shopify store, the email list, the Instagram account, and the wholesale kit for Lucy's gyms.

Build

now to July

Seed bands with instructors and creators (our main reach), batch-film Lucy's content, grow the email list, and start warm gym outreach.

Momentum

Jul to Aug

Double down on what works, frame the 500 as a limited founding drop, line up podcasts, and lock in the early reorder.

Launch

September

The Bondi or Double Bay event, the founding drop with a waitlist when stock is low, gyms live, and a first light round of ads.

Grow

after

Reviews and customer photos, emails that bring people back, a community group, and TikTok Shop if it lands.

What we need from you, Lucy

- Approve the plan: one hub, you as the face, wholesale and DTC together.
- Access for Hugo to set up Shopify and Instagram (no separate website needed).
- Decide the fabric (recycled, organic or hemp) for the sustainability story.
- OK a little early ad spend, and an honest follower goal over a vanity 10k.
- Commit to ordering batch 2 early, so we never sell out then go dark.
