

1. The "why"

What made you start Sportif? What did you see in the world, or in your own life, that was missing?

Your answer: Originally I was going to launch an activewear clothing brand. Decided to begin with an affordable luxury Fitnesswear accessories brand instead.

I found that Activewear accessories in the stores were very masculine with the black and fluoro colours and I wanted to bring a new look to the market.

2. The one-liner

If a stranger asked what Sportif is in 10 seconds or less, what would you say? Don't overthink it. Write what you'd actually say at a party.

Your answer: Affordable Luxury Fitnesswear accessories and activewear.

3. The product

What are you launching? Tell me about the product(s): what they are, what makes them different, and what people get wrong about your category.

Your answer:

Booty Bands, Vegan Ankle Strap. The Booty Bands and Vegan Ankle Straps will come in a cotton pouch.

Then I will be moving into recycled fabric and organic materials for the activewear range.

Also my bands are custom colours and are not in stock colours that other brands sell.

4. The competition

Who do you see as your main competitors? Just give me names of brands or products you watch closely, compete against directly, or get compared to. 2-5 is plenty. No analysis needed, I'll do that part.

Your answer: PE Nation, AJE, Your Reformer, Move Active, Avara Athletics, ANINE BING. Leelo Active and Kikiva.

5. The customer

Describe your ideal customer like they're a real person. What's their day like? What do they care about? What do they spend money on? What turns them off?

(If you have multiple customer types, give me 1-2 paragraphs on the primary one and a sentence on the others.)

Your answer: Healthy young lady 18-45 who enjoys early morning pilates classes, walks. I like to wear beautiful, sustainable activewear- matching shoes and accessories.

6. Where they hang out

Where does your customer spend time online? (TikTok, Instagram Reels, YouTube, specific communities or subreddits, newsletters, etc.) Be specific. "Social media" isn't enough.

Your answer: Instagram Reels, Tiktok and newsletter's.

7. Tone

How do you want Sportif to come across? Pick 3-5 words (e.g., bold, friendly, technical, premium, irreverent, no-nonsense). Then tell me 1-2 tones you definitely don't want.

Your answer: Luxury, affordable, community focused, Catchy Statements such as **Too** fashionable **not to WEAR!**

8. References, what feels right

Send me 3-5 examples of ads, posts, videos, or content that "feels right" for Sportif. They can be from any brand in any category. I'm looking at the feel, vibe, and energy, not at copying anyone.

For each, tell me in one sentence what about it works for you.

Your answer:

<https://www.instagram.com/aninebing/?hl=en> - Love her Personal account. Neat looking!

<https://www.instagram.com/kikiva.collection/> - Founder Content, Behind the Scenes and Community Focused Content.

9. References, what feels wrong

Send me 3 examples of content that DEFINITELY doesn't feel right for Sportif. Same idea. Any brand, any category. What about each one is off for you?

Your answer:

<https://www.instagram.com/whitefoxboutique> - Tacky Style photos- showing lots of skin.

10. Visual identity

My PR team in the US created a mockup of my Instagram layout. Will send this to you through Canva.

- **Logo:** Attach the file(s). If you don't have one yet, just say so. I Created my own Logo. Will send through Canva.
- **Colors:** What colors are you using (or want to use)? Hex codes if you have them, or just attach screenshots or swatches. Light Orange (in Canva #f0cdb3)
- **Fonts:** What fonts are you using (or want to use)? Attach files or send names. *Glacial Indifference*
- **Existing photography or imagery:** If you have product shots, lifestyle imagery, or anything visual we should know about, send it. Completed a photoshoot in February. Another shoot next week with a pilates instructor will have videos and pictures demonstrating different exercises using the bands and ankle straps. Will send this through to you.

Your answer / attachments:

11. Constraints & goals

- **Off-limits:** Anything you absolutely can't or won't do? (Legal restrictions, words to avoid, claims you can't make, imagery that's off-brand, etc.)

Need to create a domain name, speak to my lawyer re Trade Mark.

- **September success:** What does a successful launch look like to you? (Sales targets? Follower counts? Press? Something else?)
 1. Sales Target to sell 500 bands+
 2. Follower count 10,000+
 3. Working with a Business coach towards the end of the month.
 4. Launch will be in Double Bay or Bondi, currently working on this now.
 5. I have press clippings already, please see above. Will ask local publications to come to the launch.
 6. Will be attending the LA Fitness Expo in February next year.

12. Timeline & rollout

You're set up on Instagram but haven't started posting yet, which gives us a clean slate. Walk me through how you're thinking about the runway from now to September:

- **Timeline:** are we aiming for a single "launch day" content drop in September, a slower build-up starting now, or somewhere in between? Start building up content now.
- **Platform strategy:** do you want to roll out everything across Instagram, TikTok, and Facebook at once, or sequence it (e.g., start with one, prove it works, then expand)? Let's discuss this further please.
- **Open to discuss:** if you're not sure yet, say so. I have ideas on how to approach this and we can shape it together on a call.

Additional Information

- Focus on wholesale to begin with in Australia this year and the US next year.
- For the website I will be using Shopify.
- 500 bands arriving this month
- May need to hire a Wholesale Sales Agent for Sydney and Overseas
